Bonnett’s Adult Tap Classes Descriptions

Tap I
Adult beginner class for those who have never tap danced before or want a refresher to get back into it. Basic tap technique, terminology and simple dance combinations will be taught in an encouraging and fun way! No experience necessary … just an excitement to tap your troubles away!

Tap II
Adult advanced beginner class for those who know the difference between shuffles and flaps and want to learn more skills in a controlled, relaxed and fun manner! Tap dancing promotes coordination and flexibility. Entertaining routines will be taught.

More Tap Dancin’ Fun!
An adult tap class (previous tap required) that is all about sounds, rhythms, and fundamental drills to improve tap skills. Learn to be light on your feet with crisp, clean, clear tap sounds; and become a better tap dancer. Have fun with tap combinations, too!

Have fun and learn how to tap dance at the same time!
